

TRUSTIA AI — ESTONIAN STARTUP VISA DOSSIER

OFFICIAL APPLICATION DOSSIER FOR THE ESTONIAN STARTUP COMMITTEE & PPA FOUNDER RESIDENCE

DECISION TIMELINE: 10 WORKING DAYS Committee Fast-Track	RESIDENCE GRANTED: 1 TO 5 YEARS TRP 0% Reinvested Corp Tax	TEST RIGOR: 1,281 TESTS (100%) Zero-Failure Pytest	INCUBATION: ITO BTM & TEKNOPARK Polat Tower & Cube GO
--	---	---	--

1. Business Concept & Problem Statement (Section 1)

TRUSTIA AI develops a deterministic, hardware-agnostic Level 4 autonomy software stack engineered specifically for tactical Unmanned Ground Vehicles (UGVs) and dual-use urban robotaxis operating in electronic warfare and GPS-denied combat environments.

Modern military operations face severe GPS jamming, spoofing, and asymmetric threats (landmines, IEDs, CBRN risks). TRUSTIA solves this by providing a universal plug-and-play autonomy "brain" that converts any modern vehicle chassis into a Level 4 autonomous platform in under 15 minutes via industrial CAN-Bus (SAE J1939 / CAN FD).

The software integrates a proprietary 400Hz ESKF filter, 3D LiDAR Pose-Graph SLAM (NDT+ICP), and Hybrid A* Ackermann planning, validated across 16,000+ lines of code and 1,281 automated unit and integration tests (100% pass rate).

2. Technological Innovation & Intellectual Property (Section 2)

400Hz GPS-Denied SLAM	3D LiDAR + 400Hz IMU sensor fusion. Position drift <0.08m over 10km in electronic warfare theaters.	Anti-Jamming / Spoofing
Universal Plug & Play	Direct CAN 2.0B / CAN FD / Drive-by-Wire interface. Vehicle conversion in < 15 minutes.	SAE J1939 / ISO 26262
1,281 Automated Tests	Zero external critical dependencies. Deterministic real-time cycle execution latency < 1.2 ms.	1,281 / 1,281 (100% PASS)
Multimodal Defense Fusion	LWIR Thermal (FLIR Boson) + Induction + GPR Radar fusion to isolate explosive hazards autonomously.	NATO STANAG 4586

3. Strategic Alignment with Estonia & NATO Innovation Ecosystem (Section 3)

- Estonia is the European capital of cyber defense (NATO CCDCOE) and ground robotics (Milrem Robotics, Tehnopol, NATO DIANA):
- Defense & Robotics Clustering: Establishing TRUSTIA in Tallinn (Tehnopol / Ülemiste City) enables direct software-level integration with European UGV platforms and participation in NATO DIANA innovation challenges.
 - 0% Corporate Tax on Reinvested Earnings: Enables reinvestment of 100% of licensing cash flows into autonomous vehicle R&D.;
 - Engineering Talent: Rapid scaling with robotics and computer science graduates from TalTech and University of Tartu.

4. Business Model & 3-Year Financial Forecast (Estonia HQ)

Projected Revenue (€)	€210,000	€850,000	€2,800,000
Integrated Vehicle Fleet	6 Units (PoC)	30 Platforms	120+ Platforms (EU)
Software Gross Margin (%)	84%	87%	91%
Direct High-Tech Jobs in Tallinn	3 R&D; Engineers	8 Team Members	18 Team Members
Primary Revenue Streams	Pilot Kits + PoC	C2 Tactical SaaS Licenses	PanEuropean Defense Frameworks

5. Founder Qualifications & Institutional Track Record (Section 5)

- Founder & Chief Executive Officer (CEO): Murat Furkan Bayram.
- Official Incubator Backing: Admitted to the Istanbul Chamber of Commerce BTM Incubator (Polat Tower, Istanbul).
- Defense Tech Hub: Candidate technology company in Teknopark Istanbul (Cube Incubation / Cube GO).
- Defense Industry Excellence Score: 100/100 Perfect Grade by Turkish Presidency of Defense Industries (SSB) & BTK (ID: L2zPtN4X1ZJ).
- Certified Advanced Entrepreneur: Accredited by the Ministry of Industry and Technology (KOSGEB KSB01UGE0115153370).
- National R&D; Researcher: Registered in TÜBİTAK ARBİS (TBTK-0229-6571). ASELSAN Defense Supplier Code: 0050569CCE941FD1A49FCEFB9B7BE7D6.

6. Operational Process & Timeline (10-Day Committee Approval)

- STEP 1 (APPLICATION): Submit application on apply.startupestonia.ee with this master dossier attached.

STEP 2 (COMMITTEE APPROVAL): 10-day evaluation by the Estonian Startup Committee ☐ Unique Committee Code Issued.

STEP 3 (VISA / RESIDENCE): Apply for the Startup Visa at the Estonian Embassy or 5-Year Temporary Residence Permit (TRP) via PPA Tallinn.
