

TRUSTIA AI — GLOBAL EXECUTIVE INVESTOR PITCH DECK

Next-Generation Military-Grade Autonomous UGV Software Stack & AI Core

1. EXECUTIVE SUMMARY & FOUNDER PROFILE

Company Name: Trustia AI Autonomous Systems Ltd.

Founder & Lead Architect: Murat Furkan Bayram (Age: 17 | Serial Tech Entrepreneur)

Prior Venture History: Founder of Ödelink & Paycol (Fintech & Cloud Infrastructure Platforms). Successfully pivoted experience into Deep-Tech & Defense Robotics.

Core Mission: Trustia AI is a 100% native, hardware-agnostic, military-grade autonomous software stack engineered for Unmanned Ground Vehicles (UGVs) operating in Electronic Warfare (EW) and GPS-Denied battlefield environments.

2. THE PROBLEM & MARKET OPPORTUNITY

- **GPS Vulnerability in Warfare:** Modern defense operations face total GPS spoofing and jamming. Existing UGVs fail when satellite positioning is compromised.
- **Hardware-Software Fragmentation:** UGV hardware manufacturers excel at chassis building but lack advanced 3D SLAM, ROS 2 integration, and AI threat perception.
- **High Market Growth:** Global military UGV & autonomous defense market is projected to surpass Billion by 2030.

3. TECHNICAL ARCHITECTURE & CORE INNOVATION

- **GPS-Denied 3D Position Graph SLAM:** Centimeter-accurate 3D LiDAR/Visual Odometry mapping without satellite dependence.
- **YOLOv8 AI Threat & IED Detection:** Real-time visual threat perception, automated 30m quarantine zone calculation, and landmine detection.
- **STANAG 4586 Level 4 Protocol:** Fully compliant with NATO/TC Military Interoperability Datalink Standards and JAUS architecture.
- **ROS 2 Humble & HMAC-SHA256 Cyber Shield:** Zero-latency RTOS execution, multi-robot swarm coordination, and encrypted command telemetry.
- **Verified System Quality:** 1,276 automated unit & integration tests passing clean with 100% determinism.

4. OFFICIAL GOVERNMENT & DEFENSE ACCREDITATIONS

Accreditation Body	Registration ID / Code	Official Status
KOSGEB (Ministry of Tech)	KSB01UGE0115153370	Advanced Entrepreneurship Certified
SSB & BTK Academy	L2zPtN4X1ZJ	Defense Systems Certified (100/100 Score)
TÜBİTAK ARBİS	TBTK-0229-6571	Official Defense Researcher ID
ASELSAN Gücümüz Bir	0050569CCE941FD1A49FCEFB9B7BE7D6	Supplier & Localization Program
T3 GSYF Venture Fund	5392380	Applied / Incubated Venture

5. BUSINESS MODEL & GO-TO-MARKET STRATEGY

- **B2G Defense Prime Contracts:** Direct software licensing to Defense Ministries (SSB, TSK) and Tier-1 Defense Primes (ASELSAN, HAVELSAN, FNSS, BMC, Otokar).
- **B2B UGV Hardware OEM Integration:** Providing turnkey software autonomy engines to small & mid-scale UGV manufacturers.
- **Autonomous Software Sponsorship Program:** Empowering university robotics teams and TEKNOFEST UGV builders with free software licenses in exchange for live field video validation and brand exposure.

6. 3-YEAR FINANCIAL PROJECTIONS (EUR)

Financial Metric	2026 (Year 1)	2027 (Year 2)	2028 (Year 3)
Target Revenue	€250,000	€1,500,000	€5,000,000
R&D; & Engineering Spend	€120,000	€450,000	€1,200,000
Net Profit Margin	35%	48%	55%

7. CORPORATE CONTACT & HEADQUARTERS

Company: Trustia AI Autonomous Systems

Founder & CEO: Murat Furkan Bayram

Official Email: kariyer@trustia.com.tr

Corporate Website: <https://trustia.com.tr>

Location: Istanbul, Turkey (Expanding to Estonia & EU)
