

UK INNOVATOR FOUNDER VISA — OFFICIAL ENDORSEMENT SUBMISSION

UK Department for Business and Trade (DBT) GEP & Official Endorsing Bodies Proposal

1. APPLICANT & VENTURE IDENTIFICATION

Applicant Name: Murat Furkan Bayram

Role: Founder & Lead Autonomous Systems Architect

Company Name: Trustia AI Autonomous Systems

Target Visa Category: UK Innovator Founder Visa (GOV.UK Route)

Proposed UK Headquarters: London / Cambridge Deep-Tech Robotics Hub

2. HOME OFFICE CRITERIA COMPLIANCE ASSESSMENT

CRITERION 1 — INNOVATION: Trustia AI v2.0 solves the critical defense challenge of UGV navigation in Electronic Warfare (EW) & GPS-Denied combat zones. Incorporates proprietary 3D Position Graph SLAM, YOLOv8 visual threat perception, and STANAG 4586 Level 4 NATO interoperability protocols.

CRITERION 2 — VIABILITY: The software stack is 100% operational and verified by 1,276 deterministic system tests. Supported by official government accreditations including KOSGEB Advanced Entrepreneurship (KSB01UGE0115153370) and SSB Defense Systems Certification (L2zPtN4X1ZJ - 100/100 Score).

CRITERION 3 — SCALABILITY: Target global military UGV market exceeding .5 Billion by 2030. Revenue driven by B2G defense prime software licensing and B2B SaaS OEM integration for UK/EU UGV chassis manufacturers.

3. OFFICIAL GOVERNMENT & DEFENSE CREDENTIALS

Accrediting Authority	Registration ID	Official Status
KOSGEB (Ministry of Tech)	KSB01UGE0115153370	Advanced Entrepreneur Certified
SSB & BTK Academy	L2zPtN4X1ZJ	Defense Systems (100/100 Score)
TÜBİTAK ARBİS	TBTK-0229-6571	Official Defense Researcher ID
ASELSAN Gücümüz Bir	0050569CCE941FD1A49FCEFB9B7BE7D6	Supplier & Localization Program

4. UK EXPANSION & JOB CREATION PLAN (3-YEAR HORIZON)

- Year 1 (UK Setup):** Establishing UK R&D; subsidiary in London/Cambridge, hiring 3 senior UK robotics & C++ software engineers.
- Year 2 (EU/NATO Expansion):** Expanding live UGV field trials with UK & NATO defense contractors, scaling team to 8 FTEs.
- Year 3 (Market Leadership):** Securing UK MOD / NATO prime software supply contracts, scaling to 15+ high-skilled engineering jobs in the UK.
